WE ENDEAVOUR

Bright Tulips International School stands on the firm foundation laid by Shri Siddhi Vinayak Educational Trust. Established in the year 2007. This school has proven its merit in the field of education. A dream school for new age learners who seek the best in academics, sports and extra-curricular activities, life skills, soft skills and the latest technology.

The school believes in the mantra of passion and compassion; passion for all good initiatives and compassion for all creatures-great and small. The school takes necessary action to implement and create awareness among the students, parents and the other stakeholders. Our students are nurtured in a loving and caring ecosystem, with an understanding that will imbibe the best qualities of the head and the heart and learn to overcome life's myriad challenges.

OUR VISION

At Bright Tulips International School, we recognize the imperative of imparting an educational experience that is world-class in every respect and which prepares children for global citizenship. We are a school with an Indian mind, an Indian heart and an Indian soul; a school that celebrates the culture of excellence and is an embodiment of values. We believe that a curriculum of excellence with a global dimension is central to the education of children to face the challenges of the 21st century with confidence and strength of character.

We aim to groom the students as confident and responsible citizen to accept the modern challenges with our cultural heritage.

ESSENCE

Managed by Shree Siddhivinayak Educational Trust and affiliated to Gujarat State Educational Board, Bright Tulips is a purely English medium co-educational Pre-Primary, Primary, Secondary & Higher Secondary School which provides a congenial environment for children to learn and grow. Lessons are not confined to the classroom alone. We, at Bright Tulips, believe in educating our children, not merely in completing our textual curriculum.

Since its inception, our overarching goal has been to make BTIS a happy school, where teaching is a pleasure and learning is a joy; where learning and excelling is a passion, and culture and values have a pre-eminent place.

ACADEMICS

Our Teaching and Learning Philosophy-

School is the first environment that a child enters after the safe environs of home. To make the transition seamless and exciting for young learners, Bright Tulips school ensures that they are not only safe and happy but are excited to come to school. With the National Education Policy 2020 as the pivot point, we have curated our academic landscape with care. The teaching philosophy of the school follows the activity based learning for the primary years. The methodology is modern, innovative and child friendly.

The school provides a safe and intellectually challenging environment for its middle and senior wing that will empower the students to be innovative thinkers, dynamic leaders, creative problem solvers and lifelong learners prepared to thrive in the 21st Century. Every society wishes for their young to develop into successful, versatile, healthy, kind and rational individuals. This has inspired us to create a holistic ecosystem of scholastic and co-scholastic pursuits. While we help our pupils learn the rigor of academics, we also assist them in becoming physically and emotionally healthy individuals who may prove valuable to the society in future.

Music

As per NEP Curriculum

(National Education Policy 2020)

FOUNDATIONAL STAGE

(Nursery- Grade II)

We consider learning in a fun and enjoyable atmosphere the most effective and engaging way of working with young learners. It is in the early years that the foundation for all

The Levels (in years) :
Nursery : 3+ LKG : 4+ UKG : 5+
I : 6+ II : 7+

future learning is laid. Early learning experience is focused on the development of intellectual, cognitive, social, physical and emotional skills.

Hence, our foundational stage programme is a commitment to inquiry and exploration as vehicles for learning. In a safe and caring environment, our

dedicated educators ensure to foster innate curiosity in children through concrete hands-on experiences. Our teaching methods are carefully chosen to ensure good progress and to meet the needs of our young learners.

The curriculum for the Nursery, LKG and UKG is play-based and child-centered, recognizing the students' multiple intelligences and encouraging creative thinking. A day in the classroom involves structured time, academic learning, with a good balance of free-play, both indoors and outdoors.

PREPARATORY STAGE

(Grade III to V)

Since its inception, BTIS School is striving to make a transition from content to competencies. This holds more importance in the preparatory stage of a student's life. In the preparatory stage, the students form sound study habits and develop skill sets necessary to operate in social settings. The lesson plans are designed to be more learner centric and exploratory. We do not see the scholastic and co scholastic subjects in isolation, rather a typical school day witnesses a beautiful amalgamation of all spheres of learning, integrated with each other. Key areas such as mental Mathematics, simple Science experiments, Coding and STEM education etc are an integral part of the curriculum.

At Bright Tulips School our little ones learn skills, acquire new knowledge and demonstrate their understanding through :

7 areas of learning and development.

- + Personal Competencies and Social Development
- + Language and Literacy Skills
- + Foundational Numeracy Skills
- + Knowledge and Understanding of the World
- + Creative Development
- + Understanding information and communication technology Physical Skills and Competencies

MIDDLE STAGE (Grade VI to VIII)

At this stage, we focus on preparing the students for the real world by making them self-reliant and independent. We give them opportunities to hone their talents through public speaking, role plays, debates, declamations, coding, STEM education etc. Co-Curricular activities are given at the middle stage as well and include Talent-shows, Quiz, Art and Craft, Dramatics, Debating etc. The students of these classes are also involved in working for the betterment of the Socially and Emotionally Disadvantaged Groups

through various special assemblies.

Continuing into the Middle School (Grades VI to VIII), the curriculum is designed for students to experience the joy of learning, gain a deep understanding of

important concepts, develop research and experimental skills and learn to accept personal responsibility for actions, decisions and outcomes. Our goal is to help each student to attain his/her fullest potential, along with the fundamental knowledge and skills that will allow them to function effectively as a participating and contributing citizen of our society.

SECONDARY & HIGHER SECONDARY STAGE (Grade IX to XII)

At the Secondary Stage, we offer a 360° view of every student's aptitude and strengths before they choose subjects/streams through professional guidance by our career counselling partners. We believe in monitoring each student to achieve his/her best potential. We provide remedial classes to enhance students' performance. Fully equipped science labs of Physics, Chemistry and Biology focus on 'Learning by Doing' to give wings to the scientific temperament of our students. New Age Subjects such as Artificial Intelligence, Multi Skill Foundational Course, Information Practices, Space, Psychology, Financial Literacy and Life Skills are a part of the curriculum.

In the Secondary Classes IX and X and Senior Secondary Classes XI and XII sections adhering to the philosophy of child-centric education, learning is still made interesting, using various methodologies like project work and group activities, which also inculcate the value of teamwork.

WHY CHOOSE US?

ACADEMIC EXCELLENCE

We foster a love for learning through a well-structured curriculum that challenges and inspires! Our dedicated teachers encourage curiosity and critical thinking, preparing students for success in a rapidly evolving world. This has sufficient evidence in our outstanding academic results year after year!

HOLISTIC DEVELOPMENT

Education is more than Academics! We believe in developing well-rounded individuals through various extracurricular activities, including sports, arts and various literary events.

PERSONALIZED ATTENTION

Our commitment to each student's growth is strengthened by 'limited class size' and a focus on individualized support. We aim to understand and nurture every child's unique talents ensuring they feel valued and understood.

STATE-OF-THE-ART FACILITIES

Our campus is equipped with modern facilities to provide an optimal learning environment. With fully-equipped labs - Robotics and Science, a Library, a Multipurpose Cultural Hall, Sports facilities and Interactive Classrooms, students have the resources they need to thrive.

PROGRAMMES & ACTIVITIES

- (i) Academics : + Comprehensive curriculum from Kindergarten to Class 12
